

# CAMANO PICKLEBALL

## Putting Away the Nets

### 1. Fold the net in half

### 3. Use both hands to roll the net tight

### 2. Fold the net in half again

### 4. Take all the bars apart, even the small pieces. Put the straight poles in the bag first.

**5. Put the poles with the extensions in last, pointed out away from the location of the net.**

**7. Before zipping the bag make sure, everything fits. The zipper should close easily. Take your time. If it doesn't, then the bag tears, the zipper breaks or a bar pokes through the bag.**

**6. Put the rolled-up net in last. Some of the bags have a separate compartment. Please use it.**

**Thank you for helping us use our equipment longer!**
